

Description:	Harmony Hall Table
Width:	39.25"
Depth:	18"
Height:	30"
Weight:	lbs.
Material:	Solid Wood Table Top*

A robust, solid, and clean line table design; the Harmony Table represents a solid footing and a balance. The thick, natural wood beams are interlaced construction and create a most solid square construction. The leg design hints at the four cardinal directions, the table lofted upon them as if to present itself as a fixed point in space saying "I know where I stand". Available in our healthy and durable water-based wood. Solid Beech wood table top, other top options such as URBAN and Solid Surface are available upon request.

*Upgrade options upon request - Urban or Solid Surface.
